

## Poster design assignment

Using the poster design guide that you have been given you must design a FINAL POSTER that has ALL of the following parts on it:

- Las Meninas by Diego Velazquez (a photograph)
- The 5<sup>th</sup> December by Jan Steen (a photograph)
- The titles of the paintings (beautifully written out by hand)
- The dates that the pictures were made and names of the two artists (typed on the computer)
- A 150 word text that describes the Velazquez painting (typed on the computer)
- A 150 word text that describes the Steen painting (typed on the computer)
- Five enlarged details of important similarities or differences between the two paintings (these details should be drawn)
- Five short pieces of text that explain the details that you have chosen to highlight (typed on the computer)

(For this part of the assignment you will work in groups)

But before we get to the group work there is first an individual part. For this part you will get an individual mark.

For this first part of the assignment is to plan a design.

That means deciding the layout of the poster.

How are you going to make the space for the following on your poster?

- Two pictures
- Two titles
- Two blocks of text
- The Names of two artists and the year the painting was painted
- Five details from the pictures and short explanations explaining why the details are important.

The aim is to make a design plan on one A4 sheet that clearly and neatly shows where you are going to put everything in an interesting and organized way. **Use the advice from the poster**

**guide sheet.**

When the poster design plans are finished you will then be placed in a group and the aim is to use the best parts out of all the design plans to produce a finished A3 size poster that has all the criteria listed at the top of this sheet.

You will in the end be given a group mark for the finished poster. You must divide the divide the tasks the group poster design:

**Pupil 1** Makes the (handmade) lettering for the titles of the paintings and makes sure that the names of the artists and the dates of the paintings are printed out

**Pupil 2** Writes the two 150 word descriptions of the two paintings

**Pupil 3** Draws the 5 enlarged details for where the poster analyses the similarities and differences between the two paintings

**Pupil 4** Writes the five short pieces of text to go with the enlarged detail drawings

**Everyone is responsible for the overall design and if you finish your part quicker than someone else in the group you should help them finish or improve their work.**
