Contemporary Dance and Performance

You might not immediately think that modern dance is your sort of think, but don't be so quick to come to that conclusion. Take a look at these three very different contemporary dance performances.

Cultural baggage

What is the cultural background of your teachers, what are their favourite things? Which teacher gave the answers below?

What album/track do you remember listening to when you were at school and loving?

[Rumours by Fleetwood Mac](#)

What are you listening to a lot at the moment?

[Birdy - Carboon - Lana Del Rey - Adele](#)

What book did you enjoy when you were at school and would recommend to pupils at school?

[Multatuli \(one of the few I've read\)](#)

Favorite film from your school days?

[The Graduate](#)

Which film could you watch again and again?

[Once Upon a Time in the West](#)
(although no more dan two or three times)

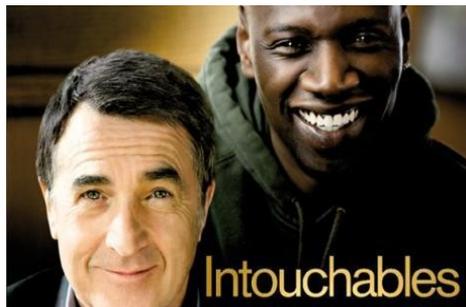

What's the best film you've seen in the last year?

[Intouchables \(French\)](#)

What is the most amazing building that you have ever seen?

[Campusbuilding TU Twente](#)

If you don't recognize any of the answers above, why not look them up. Who knows, you might start to understand your teachers a little better! In this case, Mnr. Coumans

Take a look at the trailer for Mnr. Coumans best film this year. The storyline doesn't sound especially funny, but believe me, it is!

A contribution from Ko in V5....

**A film worth seeing:
500 days of Summer.**

That awkward moment when your life falls apart when someone who did or did not love you for at least 300 days. That's what 500 days of Summer is about. The film was released in 2005. It is a comedy, romantic drama, but if I may quote the voice over in the beginning of the film: 500 days of Summer is not a love story. The storyline of the movie is pretty good but what makes the film worth seeing is the way scenes were cut, put together and embraced by the music that was added.

Special effects

Special effects have always had an important part to play in the movie world. When we look back to older films we are often struck by the primitive and even laughable visual effects.

It is important to remember that every generation has been amazed by the illusions of the most modern technology....including our own. It would seem likely then that in the future that we will look back on the films of 2012 and think how old fashioned the special effects look.
